

## List of ACA Preventive Services and CPT Codes

This is meant to be a general guide for reporting and billing preventive services covered by the Affordable Care Act (ACA) without cost-sharing. It was developed and formatted based on CPT and ICD-9 billing guidelines. Individual state Medicaid programs and private commercial insurances may have other instructions for reporting and reimbursing for these particular services. Medicare uses HCPCS codes to describe preventive services. \*STDATAC/Jan. 2014. Thank you to Lissa Singer, RNP, MB, CPC-I, for her contributions to this document.
